

Streamlining the procurement process

Efficient, transparent and compliant purchase

With Axon Ivy, companies automate the procurement process. Purchases are managed transparently, compliantly and efficiently. Approvals are made on the basis of precisely defined procurement rules, with responsible parties automatically involved as required.

Challenges

- No regulated communication between requestor, procurement team and finance department
- Involvement of different business units with different authorization steps
- No distinction between the procurement of assets and other expenses
- Lack of transparency in the procurement process

Highlights

- Restrictive, rule-based approval procedure
- Transparent and traceable authorizations for procurements
- Integration of a Business Rule Engine (BRE)

Solution with Axon Ivy

- Digital procurement application to control the process according to internal rules
- Automated involvement of decision-makers according to their respective authority
- Transparent, efficient and clear approval process
- Compliant process for equipment procurement

Reasons for Axon Ivy

- Successful proof of concept
- End-to-end process for all types of procurement
- Seamless integration into existing IT environment the ERP financial system
