

Quality assurance in pharmaceutical

Digital management system with Axon Ivy

Axon Ivy creates a digital management system for knowledge and technology transfer in pharmaceutical. The digital processes enable a smooth interaction of subsystems and actors as well as the secure and compliant implementation of requirements. The market benefits from quick decisions.

Challenges

- Slow coordination processes due to decentralized locations
- Involvement of different departments
- Long and time-consuming approval processes
- Manual document processing and forwarding

Highlights

- Approvals accelerated by a factor of 3 for 90% of requests
- Automated forwarding of tasks
- Integrated escalation management
- Implementation of requirements according to compliance guidelines is ensured

Solution with Axon Ivy

- Continuous digital control and monitoring of the approval process
- Recording and monitoring of all KPIs
- Use of adaptive case management for agile task delegation

Reasons for Axon Ivy

- Successful PoC implementation
- Easy scalability of the solution
- Agile development thanks to Scrum methodology
- Intuitive, modern and user-friendly user interface
- Low training effort
