

Smart employee onboarding process

Creating a good first impression

Axon Ivy automates the onboarding process, laying the foundation for the digital transformation of any HR department. The process streamlined the onboarding process for HR and hiring managers and leaves a good first impression on new employees. This makes new entries a breeze for both sides.

Challenges

- High cost of handling surveys during the onboarding process
- High administrative burden and email-heavy processes
- Lack of clear responsibilities

Highlights

- Involvement of all relevant departments
- Clear and documented distribution and monitoring of tasks and status
- Fluctuation of new employees in the first year decreases by a factor of 3
- Cost savings are driven by faster productivity

Solution with Axon Ivy

- An intuitive workflow guides HR and legal managers through the entire onboarding process
- Structured request and approval process for authorizations, material, and other necessary arrangements

Reasons for Axon Ivy?

- High data security for personnel data
- Seamless integration into the existing system
- Agile development thanks to Scrum methodology
- Fast deployment despite many custom requirements
